

Autumn 1

What are we learning in Year 5?

Geography

We are exploring North America. We will be learning about the different countries within North America including the states within USA. We will also be identifying the human and physical features and learning about the rivers and mountains in North America.

English

This half term we are reading the viewer. We will be using the pictures within this book to write poems, newspaper articles and write a balanced debate.

Maths

Our focus in maths is place value including roman numerals, numbers to 1,000,000 and identifying the place value in 5-digit numbers.

Science

Animals including humans is our topic this half term. We are learning about the human life cycle including the life cycle of a foetus and how humans change as we get older. We will also be learning about gestation periods in animals and why some have longer periods than others.

RE

This half term we are learning about why people go on pilgrimage. We will be looking into many religions including: Christianity, Judaism and Islam.

Art

This half term we are investigating drawing using space as a focus. We will be understanding retrofuturism and creating ideas through printmaking for our final piece.

Spanish

We are learning about my school and your school. We are learning how to say and write a range of subjects including our favourite lessons and classroom equipment.

PSHE

Me and my relationships is our theme for this half terms PSHE. We will be focusing on making friendships, working together and communicating with others. We will also look into what makes a relationship unhealthy and who children can talk to for help.

Computing

Our topics this half term are online safety and databases. We will be learning about responsibilities and being safe when online and protecting our privacy. We will be looking at information in databases and how to contribute and create a database.
