

Geography

Climate change is our first Geography topic of the year. We will look at the impacts of global warming, extreme weather and how we can make changes within our school and our local community.

English

Louis Sachar's 'holes' is a great adventure story. We will be writing non chronological reports and letters this half term based on the novel.

Maths

This half term we will be learning about place value, focusing on numbers up to 10,000,000. We will then use this knowledge to help us when learning about the four operations

Computing

Online Safety is a crucial part of the curriculum, we will be learning about how to keep safe online and when using instant messaging services.

Science

Every year group's topic is animals including humans. In year 6 we will be focusing on the heart and lungs, their importance within our body and will be identifying toxins that can cause our bodies damage.

Art

Our focus skill is drawing. We will look at Mayan art work and how this influenced the street art that we see today. We will create a final piece with a message to influence others.

PSHE

Our topic is me and my relationships, we will identify strategies to help us deal with conflict and will identify key values that are important in a friendship.

Religious Education

We will be studying the religion Sikhism. We will look at their way of life, the values they hold and how this compares to Christianity.

Spanish

We will be learning the vocabulary linked to where we live. We will sing songs, practice our pronunciation of words and will write about our everyday lives.
